Re: United Zinc Smelter Site

Dear Mr. Wallis:

The U.S. Environmental Protection Agency (EPA) would like to sincerely thank-you for taking the time to make the presentation regarding the lead smelting sites in Iola, Gas, La Harpe and Altoona, Kansas last week. It was obvious that you had spent a lot of time and thought making your presentation. EPA will be meeting with the state shortly to see how we can work with you to accomplish your plans and meet regulatory requirements.

If you have any questions, please contact Denise L. Roberts, the staff attorney assigned to this Site.

Sincerely,

Denise L. Roberts
Senior Assistant Regional Counsel
